TOPIC: ADULT HOUSEHOLD MEMBER CHARACTERISTICS

DATA FILES

Data are available in STATA (8.0) format. Data and electronic documentation are available on the MxFLS website.

Data is contained in folders, one for each household book. There are 11 folders. The folder names were assigned by the book prefix followed by the correspondent book initials. For example, in the Adult Characteristics book, section Tastes and habits are in iiib_gh.

The modules names were assigned by using the book initials prefix followed by the section denomination. For example, the section that corresponds to the cover of the Adult Characteristics book is denominated iiib_portad.

This book, Adult Household Member Characteristics, has 16 sections and 24 modules. The modules are the following ones:

DICTIONARY

For each one of the variables in each module, the dictionary gives the following information:

VARIABLE NAME	It is denominated with the section initials and the number of the question
FORMAT	Assigns a for alphanumeric variables and n for numeric variables
VARIABLE LABEL	Provides a description of the variable
VALUES LABEL	Provides the meaning of the values of the codified variables
TOTAL OF OBSERVATIONS	Provides the total of no missing observations of the variable
